Subject: Docket Number 05-44481 (RDD)

Honorable Robert D. Drain:

I object to Master Disposition Agreement Article 9.5.11. I am a salaried retiree from Delphi effective 5-1-09. I have a Separation Agreement entitling me to severance payments for 6 months. I signed this contract in April 2009 during bankruptcy. I waived certain rights through a Release of Claims in order to receive severance. I provided an item of value to Delphi in exchange for severance payments. Severance payments are a contract liability and not a Delphi-provided benefit. I have a legal contract and I expect it to be honored.

I plan on using this severance to help pay for medical expenses since I lost my health care earlier with your decision. I also face a pending pension reduction with transfer to PBGC. The total liability for continued severance payments is low.

Please rule in favor of continued severance payments.

Very respectfully,

Raymond A. Zagger
